Project Title: "The Future of Artificial Intelligence in Society"

-1.1 Description

In this project, you have to explore the **impact of artificial intelligence (AI)** on various aspects of society, including health care, finance, education, transportation, and more (*choose only one aspect*). You will research current and potential future applications of AI, as well as the ethical and social implications of its use.

-1.2 Details of tasks

1. Choose a specific aspect of society that is or could be impacted by AI (e.g. healthcare, finance, education, transportation). *Choose only one aspect*.

2. Research current and potential future applications of AI in that aspect of society.

3. Analyze the impact of AI on that aspect of society, including its potential benefits and drawbacks.

4. Examine the ethical and social implications of AI use in that aspect of society.

5. Create a report summarizing your research and analysis, including visual aids such as graphs, charts, and images.

6. Deliver your report in the form of a short video presentation (7 minutes presentation) and upload it to your Youtube channel. Do not use slide in your presentation. Speak as naturally as possible.

-1.3 Report & presentation

You must submit:

- A report summarizing research and analysis of AI's impact on a specific aspect of society ($\pm$ 1.5 pages, maximum 2 pages).

- Include the link in your report, and make sure that your voice is clear, your face is shown in the video, and the link is accessible.

-1.4 Grading

- Report: 50%

- Presentation: 50%
